Presentation, Book Reading & Discussion

When Owen gets a cellphone for his birthday, he excitedly texts his friends! But soon, his new phone causes isolation and unintended consequences. It becomes obvious to everyone around him: *Owen's got a bad case of Cellphoneitis!*

This laugh-out-loud book shares a subtle social-emotional lesson delivered through light-hearted rhyme and humorous illustrations.

Discussion points and ideas for screen-free activities are included at the back of the book.
